02 · Lesson spec

Let's Fix Mistakes · 40 minutes · whole class, then pairs · fully unplugged

Goal	**I can find the wrong step and fix it.**
Core parts	Move + Code
Key words	mistake · wrong · fix · check
Materials	3-card routine sets per pair (socks, shoes, walk; or wake up, brush teeth, eat breakfast); FIRST–NEXT–LAST strips; a pair of socks and shoes for the teacher; cardboard Ayo

1. Watch (5 min)

- **Show:** sit down and put a shoe on, then pull the sock over the top. **Say:** "I'm Silly Ayo! I'm ready to go!"
- **Ask:** "What went wrong?" Let children laugh and tell you. "Socks come **first**, shoes **next**!"
- **Say:** "That was a **mistake**. Mistakes are OK. We find them and we **fix** them. Then we **check**."
- **Hand signs:** mistake = hands on cheeks, "oops!" · wrong = shake your head · fix = twist like a screwdriver · check = finger slides along the cards.

2. Do in pairs (25 min)

a) Silly Ayo, whole class (8 min) · Core: Move

- The teacher acts 3 morning steps in the wrong order (eat breakfast → wake up → brush teeth).
- Children call **"Stop! Fix it!"**, tell the teacher the right order, and everyone acts it the right way.
- Play 2–3 times with different mistakes. Let a confident child be Silly Ayo once.

b) Bug hunt, pairs (12 min) · Core: Code

- The teacher lays a routine on the strip with **two cards swapped**. **Say:** "Ayo swapped two cards. Find the two in the wrong place."
- **Check step by step:** point to FIRST, act it, ask "Is this right?" Then NEXT, then LAST.
- Swap the two wrong cards back and act it again to check.
- Then pairs: one child secretly swaps two cards; the partner finds and fixes them. Swap roles.
- **Stretch:** fix a 4-card routine (wake up → socks → shoes → walk) with two cards swapped.

c) Activity Book page (5 min)

- Circle the pictures in the wrong place. Not marked.

3. Share (10 min)

- Two pairs show a bug hunt; the class acts the fixed routine to check it.
- **Ask:** "How did you find the mistake?" Praise "I checked each card".
- **Create** (if time allows): draw Ayo's mistake, then draw it fixed.
- **Close:** "Robots make mistakes when the order is wrong. We find them, fix them and check!"

Common mistakes

- **Children reshuffle all the cards** instead of finding the two wrong ones → stop them; act the routine card by card and ask "Is this one right?"
- Swapping the wrong pair → act it again to check; the mistake will show.

What if it doesn't work?

- A pair is stuck → put a finger on the FIRST card: "Is this what Ayo does first?"
- No printed cards → act the routines with real socks, shoes and a walk to the door.

Support and stretch

- **Support:** only the FIRST card is wrong; the child finds it. Then try two swapped cards.
- **Stretch** (optional, never assessed): fix a 4-card routine with two cards swapped.

How we check

Observation only. Tick each child who **finds the two swapped cards in a 3-card routine and swaps them back**.

> **Safety**
> Silly Ayo is acted sitting down: no hopping in one shoe. Children keep their own shoes on.
