02 · Lesson spec

If This Happens… · 40 minutes · whole class, then pairs · fully unplugged (torch demo optional)

Goal	**I can follow an if–then rule.**
Core parts	Move + Code
Key words	if · then · happens · because · stop
Materials	Red, green and rain cards; IF and THEN header cards; if–then picture cards (Printables); paper buttons; a torch with AA batteries (teacher only)

1. Watch (5 min)

- **Ask:** "**If** it rains, what do we take?" (An umbrella!) "**If** the traffic light is red, what does the car do?" (Stop!)
- Put the IF card on the left and the THEN card on the right. Lay rain under IF and umbrella under THEN: "**If** it rains, **then** we take an umbrella."
- "Ayo follows rules like this too. If you press red, he stops!"
- **Hand signs:** if = one finger up, eyebrows up · then = point forward · happens = open hands · because = tap your head · stop = palm out.

2. Do in groups (25 min)

a) Button game, whole class (8 min) · Core: Move

- Children are Ayo-robots. The teacher shows: **red** → stop · **green** → walk · **rain** → umbrella hands over your head.
- Speed up, slow down, surprise them. Children say the rule as they move: "If red, then stop!"

b) Pairs and if–then cards (12 min) · Core: Code

- **Pairs:** one child shows the red/green buttons; the friend-robot follows the rule. Swap.
- **Match** "if" cards to "then" cards: rain → umbrella · red → stop · green → walk · dark → torch · sunny → sun hat.
- **Teacher demo (2 min):** hold the torch. "**If** I switch on, **then**…" (light!). Open the battery cover only to show: "A torch needs **power**: batteries." Then close it. **Teacher only.**
- **Stretch:** make up your own if–then rule; or watch the teacher's "if I pour, then…" demo at one basin (or dry sand in a tray).

c) Activity Book page (5 min)

- Match each "if" picture to its "then" picture. Not marked.

3. Share (10 min)

- **Create:** draw "If it rains, I…".
- Optional Build: make red and green paper buttons for the game.
- **Close:** "If this happens, then that happens. Smart thinkers follow the rule!"

Common mistakes

- Mixing up red and green → "Red means stop, like the traffic light."
- Saying the "then" without the "if" → "Start with IF: if it rains…"

What if it doesn’t work?

- No torch → show the torch picture and its batteries picture.
- No coloured paper → colour circles with crayons.

Support and stretch

- **Support:** play with red and green only first; add the rain card later.
- **Stretch** (optional, never assessed): make up your own if–then rule.

How we check

Observation only. Tick each child who **follows an if–then button rule**.

> **Safety**
> Torch: teacher only, AA batteries only (no coin or button cells), cover stays shut. Pouring demo: one basin, teacher pours, wipe spills (or dry sand). Walk in the button game.
