# 02 · Lesson spec

*Move in Patterns · 40 minutes · whole class, then groups of 4 · fully unplugged*

| | |
|---|---|
| **Goal** | **I can move in a pattern like a robot.** |
| **Core parts** | Move + Code |
| **Key words** | pattern · move · march · jump · dance |
| **Materials** | Move cards (march, jump, clap, stamp), one set per group; masking tape line on the floor; optional music |

## 1. Watch (5 min)

- **Show** the cards march, jump, march, jump. **Say:** “This is Ayo’s dance. What will he do next?” (march)
- Do it yourself slowly, saying each move. **Ask:** “Can our bodies make patterns too?”
- **Hand signs:** march = knees up · jump = hands up · dance = sway · move = wiggle arms · pattern = tap left, tap right.

## 2. Do in groups (25 min)

### a) Robot dance on the line, whole class (8 min) · Core: Move

- Children stand along the taped line. Dance **march–jump–march–jump**, saying each move aloud.
- Then **clap–stamp–clap–stamp**. No turn cards in Nursery 1.

### b) Lay, dance, continue, groups of 4 (12 min) · Core: Code

- Each group lays 4 move cards in a pattern (march, jump, march, jump), dances it, then **continues it with 2 more cards** and dances again.
- Then the **leader** shows a new 2-move pattern with their body; the group copies and continues it. Swap leaders.
- **Stretch:** a 3-move dance (march, jump, clap…) or a skip–hop pattern.

### c) Activity Book page (5 min)

- Draw the next move in Ayo’s dance. Not marked.

## 3. Share (10 min)

- **Create:** each child invents a 2-move body pattern and shows a friend; the friend continues it.
- Two groups perform their dance for the class.
- **Close:** “Our bodies followed a pattern program, just like a robot!”

## Common mistakes

- Doing two of the same move in a row → say the pattern aloud with the moves: “march, jump…”
- Adding a turn or spin → “No turns this year; march, jump, clap and stamp only.”

## What if it doesn’t work?

- Too much noise → use quiet moves (tap knees, touch head).
- No tape → children stand in a row by the wall.

## Support and stretch

- **Support:** the teacher dances beside the child; continue 1 move, then 2.
- **Stretch** (optional, never assessed): 3-move dance or skip–hop.

## How we check

Observation only. Tick each child who **moves in a repeating 2-move pattern (march–jump)**.

> **Safety**
> Small jumps on the spot on a flat floor. Space children apart along the line. No spinning or turn cards.
