02 · Lesson spec

Revision & reinforcement · Smart Review · 40 minutes · four stations, groups of 4–6 · fully unplugged · no quiz

Goal	**I can say the problem, break a job into small steps and try another way.**
Core parts	Move + Code
Key words	All Term 3 words
Materials	Four station signs (Printables); problem and step cards; taped route + road-closed box; 3×3 grid, forward/stop cards, cut-out Ayo; big blocks and a plank; Term 3 checklist (Guide 05)

1. Quick recall (5 min)

- **Show a problem picture** (spill, broken toy, blocked path): “What is the problem? One way to solve it?”
- **Show an if–then card** (rain, red light): “If it rains, then…?” “If red, then…?”
- **Show two choices** (zebra crossing / busy road): “Which way is safe? Why?”
- Ask before you show; let children answer, then check together. Point to the thinking-steps poster.

2. Smart Review stations (25 min)

Station	Brings back	What children do
1 · Break It Small	W1, W2	Look at a problem card, say the problem, then lay 3 step cards for the job.
2 · Road Closed: Try Another Way	W3, W4	Walk a taped route; when the road-closed box appears, swap in the “go round” card and test.
3 · Help Ayo Move (teacher)	W7, T1 W9, T1 W5	From memory, lay a 3-card straight route for Ayo; the teacher swaps two cards; find them and swap them back (MVL).
4 · Ramp or Tower	W5, W8	Rebuild a small block ramp or tower with big blocks; test it; change one thing and test again. No climbing.

- Four stations, about **6 minutes each**. Groups of 4–6 rotate on two claps.
- **The teacher stays at Station 3**: this is the year outcome (order 3 cards, swap back two swapped cards). Note who still needs help.
- **Stretch:** harder station cards (4-step jobs, e.g. leave home → buy bread → pay → go home).

3. Share (10 min)

- **Create:** draw your favourite problem you solved this term.
- A few children show their drawing: “The problem was… I solved it by…”
- **Close:** “Thinkers say the problem, break it small and try another way!”
- **Activity Book pp103–104:** the Code it! page is a review game of 4 small tasks, one for each of the 4 term skills (the same skills as the Week 12 stations), and the Draw it! page asks for a favourite game from the term. Children can point or say the answer. Not marked.

Term 3 common mistakes

What children do	How to respond
Say the solution before the problem	“Great idea! But first: what is the problem?”
Grab cards before saying the steps	“Plan first: tell me the small steps.”
Choose the faster way, not the safe way	“Fast is not always safe. Which way keeps Ayo safe?”
Give up, or walk through the block	“Is there another way? Find a way round.”
Change everything when one card is wrong	“Which card is the problem? Change just that one.”
Give up when a build falls	“Great test! What can we make bigger, wider or lower?”

What if it doesn’t work?

- Rotation too slow → do Stations 1 and 2 as a whole class, then 3 and 4 in groups.
- Not enough blocks → Station 4 uses boxes and a book as a ramp.

Support and stretch

- **Support:** extra turns at the hardest station; start with 2 cards, then 3.
- **Stretch** (optional, never assessed): 4-step station cards.

How we check

Observation during stations only. **No quiz.** Tick the Term 3 checklist (Guide 05).

> **Safety**
> Big blocks only; no climbing on builds; towers no taller than a knee; light, empty boxes; walk between stations.
