02 · Lesson spec

Do It Again! · 40 minutes · whole class, then groups · fully unplugged

Goal	**I can do one move again and again (3 times).**
Core parts	Move + Code
Key words	again · repeat · times · dance · same
Materials	Move cards (clap, stamp, jump) and two “do it again” ↻ cards per group; masking tape for a jumping line (optional); cut-out Ayo

1. Watch (5 min)

- **Show:** clap three times slowly. **Ask:** “What did I do? How many times?” Count together on fingers: 1, 2, 3.
- **Show** the clap card with two ↻ cards under it. **Say:** “This card means **do it again**. Clap… do it again… do it again! That is 3 claps.”
- **Ask:** “What do we do again and again?” (brushing teeth up and down, clapping in a song, stirring soup)
- **Hand signs:** again / repeat = draw a circle in the air · times = hold up fingers · same = point to two matching things.

2. Do in groups (25 min)

a) Robot dance, whole class (8 min) · Core: Move

- Clap, do it again, do it again: 3 claps. Then stamp 3 times, then jump 3 times.
- After each move, everyone holds up 3 fingers: “How many times? Three!”

b) Do-it-again cards, groups (12 min) · Core: Code

- Each group lays one move card and two ↻ cards under it. **Say:** “↻ always means do that card again.”
- The group acts it while the class counts: “1, 2, 3!” Then change the move card and play again.
- Optional Build: jump 3 times over a taped jumping line.
- **Stretch:** repeat a 2-move pattern (step–clap) 3 times.

c) Activity Book page (5 min)

- Colour the move Ayo does again; count the claps. Not marked.

3. Share (10 min)

- Each group shows its dance; the class counts aloud and holds up fingers.
- **Action rhyme** to finish: “Clap, clap, clap your hands” (or any clapping rhyme your class knows), doing each move 3 times.
- **Create** (if time allows): draw Ayo doing one move 3 times (3 pictures the same).
- **Close:** “Robots can do a step again and again. One card plus ↻ ↻ makes it 3 times!”

Common mistakes

- Children think ↻ is a new move → point back up: “↻ means do **that** card again.”

- Doing 2 or 4 claps → count out loud together, one finger per clap.

What if it doesn't work?

- Counting is hard → do the moves slowly while the teacher counts; children just copy.
- No cards → draw a circle arrow on paper for ↻, or use the hand sign.

Support and stretch

- **Support:** one ↻ card only (2 times), then add the second.
- **Stretch** (optional, never assessed): repeat a 2-move pattern (step–clap) 3 times.

How we check

Observation only. Tick each child who **does one move 3 times using the "do it again" card**.

> **Safety**
> Small jumps on the spot or over a flat tape line only. No jumping off chairs or boxes. Keep children spread out.
