02 · Lesson spec

Showcase, results & badge awards · morning catch-up + showcase (about 60 minutes with families) · fully unplugged

Goal	Children show families what they can do, reflect on their learning, and receive the Step Thinker · Term 2 badge.
Core parts	Move + Create
Materials	Decorated Ayos and dance strips (W11) and the shape track (W4) at 3–4 showcase stations; move cards; badges (printed or stickers) and certificates; “My pattern” cards; self-reflection sheet (Review sheet)

Before families arrive

- **Catch-up check:** any child not yet seen in Weeks 11–12 does the Station 1 sequence (4 items) with the teacher.
- Fill in the record sheet; decide badges (Secure on all four items). Write names on certificates.
- **Self-reflection** (10 min): children colour a smiley for each “I can” statement (Review sheet).
- **Create (Core):** each child makes a “My pattern” card: draw or stick their own AB pattern.

Showcase stations, run by the children (25 min)

- **Move (Core):** at the dance station, a team performs Ayo’s pattern dance 3 times, stops, and asks families: “What comes next?” Families join in and continue it.
- **Code:** children show their pattern strip: “Our pattern is hop, wave… what comes next?”
- **Build:** the shape-pattern track and decorated Ayos are on display. Families can hop the shape track.
- Optional station: **Sorting Robot**: families sort big objects; children guess the rule.
- **Stretch:** children explain their pattern to a visitor in full sentences.

Badge ceremony (15 min)

1. Welcome families. **Say:** “This term we learned that smart thinkers notice repetition.”
2. Children say the Term 2 words with hand signs: pattern, repeat, next, sort, rule.
3. Call each child: “**[Name]** is a **Step Thinker, Term 2!**” Give the badge and certificate.
4. Children not yet Secure: give a Step Star sticker and a certificate of taking part, and say “You are on your way!” Plan extra pattern play at the start of Term 3.
5. Celebrate any Stretch work (ABB or ABC patterns, full-sentence explanations) with a special mention.
6. **Close:** “Next term: problem solving! We will use our steps and patterns to solve puzzles.”
7. **Activity Book p74:** the Step Thinker badge certificate. Write the child’s name, sign and date it at the ceremony.

Common mistakes

- Adults doing the dance for the child → let the child lead; families join in after.

- Giving the badge for effort alone → the badge follows the Weeks 11–12 checklist; effort gets the Step Star and warm praise.

What if it doesn’t work?

- Families cannot come → invite another class or the head teacher; send certificates and home cards home.
- No colour printer → print the badge in black and white and let children colour it.

How we check

Self-reflection smileys (not marked). The badge decision comes from the Weeks 11–12 record sheet.

> **Safety**
> Keep walkways clear for visitors; dancing in a marked space; small hops on the track; adults supervise doors and the playground.
