02 · Lesson spec

Assessment (observation + practical) · 40 minutes per period · 3 rotating stations · no written test

Goal	Every child is seen on the 4-item Term 1 checklist by the end of the week.
Core part	Practical check (Station 1)
Per period	Tick the checklist for **8–12 children** at Station 1. Repeat periods until every child has been seen.
Materials	Station 1 kit (routine cards, a clap card, two ↻ cards); record sheet (Guide 05); Station 2 Robot Says cards; Station 3 paper and crayons; three station signs

1. Warm-up (5 min)

- One quick whole-class **Robot Says** round: clap → stamp → turn. Keep it light: “Let’s play our Ayo games today!”
- Explain the three stations and the two-clap signal. Never call it a test.

2. Station rotation (30 min)

Station	Who runs it	What children do
1 · Ayo game with Teacher	Teacher	The 4-item sequence (script in Guide 05), about 4 minutes per small group of 3–4
2 · Robot Says practice	Assistant, or self-running	Give and follow commands; **not judged**
3 · Me and Ayo	Self-running	Draw “Me and Ayo” on the Review sheet

- Groups of 4–6 rotate on two claps (about 10 minutes per station). At Station 1, take **3–4 children at a time** so each child does the 4 items.
- Record **E / D / S / X** for each item straight onto the record sheet. Do not correct the child during the check; help afterwards if needed.

3. Close (5 min)

- Children show their “Me and Ayo” drawings to a friend.
- **Say:** “You showed me so much! Next week is our showcase and badge day!”

Station 1 · the 4 items (say exactly this)

1. ① “Put these 3 cards in order.” (wake up, brush teeth, eat breakfast, mixed)
2. ② “Point and tell me: first, next, last.”
3. ③ “Make clap happen 3 times with these cards.” (clap card + two ↻ cards) “Show me!”
4. ④ Swap two cards. “Silly Ayo swapped two cards. Can you fix them?”

Extending (optional, no effect on the badge): give an unfamiliar 3-step routine (e.g. wash hands: tap on → soap → rinse) and ask the child to order it and fix a swap.

Common mistakes when assessing

- Helping during the check → let the child try first; a prompt makes it “Developing”, not wrong.
- Assessing Stretch work → Stretch is never assessed; celebrate it at the showcase.
- Long one-to-one sessions → small groups, about 4 minutes; 8–12 children per period.

What if it doesn’t work?

- No assistant for Station 2 → make it self-running: children take turns as commander with the Week 3 cards.
- Some children not yet seen → check them on Week 13 morning before the badge ceremony.

> **Safety**
> Stations spread out; walk between them; Robot Says moves stay small (no running or spinning fast).
