02 · Lesson spec

Showcase, results & badge awards · morning catch-up + showcase (about 60 minutes with families) · fully unplugged

Goal	Children show families what they can do, reflect on their learning, and receive the Step Thinker · Term 1 badge.
Core parts	Move + Create
Materials	Week 11 builds at 3–4 showcase stations; command cards; badges (printed or stickers) and certificates; “My Ayo steps” cards; self-reflection sheet (Review sheet)

Before families arrive

- **Catch-up check:** any child not yet seen in Weeks 11–12 does the Station 1 sequence (4 items) with the teacher.
- Fill in the record sheet; decide badges (Secure on all four items). Write names on certificates.
- **Self-reflection** (10 min): children colour a smiley for each “I can” statement (Review sheet).
- **Create (Core):** each child makes a “My Ayo steps” card (draw or stick their 3 cards).

Showcase stations, run by the children (25 min)

- **Move (Core):** at each station, children run Ayo’s straight route for families and explain: “First…, next…, last…”
- **Code:** a family member swaps two cards; the child finds them and swaps them back.
- **Build:** the Week 11 builds and team photo frames are on display.
- **Stretch:** children explain their work to a visitor in full sentences.

Badge ceremony (15 min)

1. Welcome families. **Say:** “This term we learned that things must happen in order.”
2. Children say the Term 1 words with hand signs: step, order, command, first, next, last, fix, again.
3. Call each child: “**[Name]** is a **Step Thinker!**” Give the badge and certificate.
4. Children not yet Secure: give a Step Star sticker and a certificate of taking part, and say “You are on your way!” Plan extra play at the start of Term 2.
5. Celebrate any Stretch work (full-sentence explanations, 4-card programs) with a special mention.
6. **Close:** “Next term: patterns! They use steps and ‘do it again’.”

Common mistakes

- Adults doing the demonstration for the child → let the child run the station; the teacher only helps if asked.
- Giving the badge for effort alone → the badge follows the Weeks 11–12 checklist; effort gets the Step Star and warm praise.

What if it doesn’t work?

- Families cannot come → invite another class or the head teacher; send certificates and home cards home.
- No colour printer → print the badge in black and white and let children colour it.

How we check

Self-reflection smileys (not marked). The badge decision comes from the Weeks 11–12 record sheet.

> **Safety**
> Keep walkways clear for visitors; children walk at stations; adults supervise doors and the playground.
