02 · Lesson spec

First, Next, Last · 40 minutes · whole class, then pairs and groups · fully unplugged

Goal	**I can say what comes first, next and last.**
Core parts	Move + Code
Key words	first · next · last · order · door
Materials	FIRST–NEXT–LAST strips (one per pair); action cards (stand up, walk, wave), one set per pair; “open the door” card for Stretch; cardboard Ayo near the classroom door

1. Watch (5 min)

- **Show:** cardboard Ayo sitting on a chair, and the classroom door. **Say:** “Ayo wants to go out of the door. What must he do?”
- Lay the cards under FIRST, NEXT, LAST as children answer: stand up → walk → wave goodbye.
- **Say it together:** “**First** stand up. **Next** walk. **Last** wave!” Use the hand signs.
- **Hand signs:** first = one finger · next = two fingers · last = wave · order = point 1, 2, 3 in the air · door = knock in the air.

2. Do in groups (25 min)

a) Line-up game, whole class (8 min) · Core: Move

- Three children stand in a line. Child 1 stands up, child 2 walks, child 3 waves.
- The class calls out: “Who was **first**? **next**? **last**?” Change the actions and the children, and play again.

b) Ayo says goodbye, pairs (12 min) · Core: Code

- Each pair gets a FIRST–NEXT–LAST strip and the 3 action cards, mixed up.
- **Say:** “Put the cards on the strip so Ayo can say goodbye at the door.”
- One child acts the strip at the door as the friend-robot; the class checks: “Was it first, next, last?” Swap.
- **Stretch:** add “open the door” as a 4th card (stand up → walk → open the door → wave).

c) Activity Book page (5 min)

- Draw lines from first, next, last to the right pictures. Not marked.

3. Share (10 min)

- Two pairs show their strip; the class reads it: “First… next… last…”
- **Ask:** “When we make bread, what comes first? Next? Last?” (mix → bake → eat)
- **Create** (if time allows): draw making bread: first mix, next bake, last eat.
- **Close:** “First, next and last tell us the order. Robots need order too!”

Common mistakes

- Saying “first, second, third” → that is fine too; then say “first, next, last” beside it.
- Cards placed on the strip right to left → start at the orange FIRST box every time.

What if it doesn’t work?

- A pair cannot start → put the FIRST card down for them and ask “What comes next?”
- No strips → three sheets of paper on the desk, or three chairs labelled 1, 2, 3.

Support and stretch

- **Support:** two cards only (first, last); then add the middle card.
- **Stretch** (optional, never assessed): order 4 cards and say first, next, next, last.

How we check

Observation only. Tick each child who **uses first, next and last to order 3 cards**.

> **Safety**
> Walk to the door, never run. The teacher stands by the door; nobody goes out of the room alone.
