02 · Lesson spec

Hear the Pattern · 40 minutes · whole class, then a sound circle · fully unplugged

Goal	**I can hear and clap a pattern.**
Core parts	Move + Code
Key words	sound · beat · clap · loud · quiet · pattern
Materials	Clap and stamp cards; beep and boop cards; sound pattern strips (Printables); an adult-made sealed bottle shaker; an upturned plastic bowl and a wooden spoon; ear and eye cards

1. Watch (5 min)

- **Say** in a robot voice: “Beep… boop… beep… boop…” **Ask:** “What sound comes next?” (beep)
- Show the **ear** and **eye** cards: “We **hear** with our ears and **see** with our eyes. Today we use our ears to find patterns.”
- **Ask:** “Do machines beep patterns?” (a microwave when food is ready, a car reversing) “They beep to tell us something.”
- **Hand signs:** sound = hand to ear · beat = tap your chest · loud = arms wide · quiet = finger on lips · clap = clap!

2. Do in a sound circle (25 min)

a) Call-and-response, whole class (8 min) · Core: Move

- The teacher claps or drums **clap–stamp–clap–stamp**; the class copies, then **continues** it 2 more.
- Play loud, then quiet: the same pattern can be loud or quiet.

b) Sounds into cards (10 min) · Core: Code

- Show a sound pattern strip (clap, stamp, clap, stamp). **Say:** “The cards tell us what to play.” The class reads it and plays it.
- Groups read a new strip and play it; then continue it.

c) Sound pattern circle (7 min)

- One child plays a pattern on the **sealed shaker** or the **bowl drum**; the group copies and continues it. Pass the instrument on.
- **Stretch:** make a sound pattern for a friend to copy.

3. Share (10 min)

- **Activity Book page** (4 min): circle the sound picture that comes next. Not marked.
- **Create:** make up a beep code for Ayo (beep, boop, beep, boop…) and play it for a friend.
- **Close:** “Patterns can be seen and heard. Machines use sound patterns to talk to us!”

Common mistakes

- Copying too fast → slow the beat; count “1, 2, 1, 2” quietly.
- Mixing loud/quiet with the pattern → keep the sounds the same; only the volume changes.

What if it doesn’t work?

- No shaker → use the bowl drum, or clap and tap knees.
- Too noisy → play the quiet version: tap fingers, pat knees.

Support and stretch

- **Support:** copy 2 sounds, then 4; the teacher plays alongside.
- **Stretch** (optional, never assessed): make a sound pattern for a friend to copy.

How we check

Observation only. Tick each child who **claps and continues a sound pattern**. Note who can **name a machine that beeps a pattern**.

> **Safety**
> The shaker is made and glued shut by an adult before the lesson. No seeds or small parts in child hands. Check the lid before use. Gentle drumming only.
