Practice & Play: Help Ayo Move · 40 minutes · route-game rotation, teams of 3 · fully unplugged · no new concept

Goal	**I can move Ayo with 3 cards and fix a wrong card.**
Core parts	Move + Code
Key words	Review: forward · stop · path · another way · fix
Materials	3×3 taped grid per station; forward, stop and go-round cards; box market stall; road-closed box; cardboard Ayo; station signs and class checklist (Guide 05)

1. Watch (5 min)

- **Say:** “Ayo wants to visit the market stall on the grid. Which cards will help him get there?”
- Lay forward, forward, stop. Push Ayo **one square per card**: “Forward… forward… stop! At the market!”
- Explain the three jobs: **card-layer** lays the cards, **robot** walks or pushes Ayo, **checker** points to each card. Jobs swap at every station.

2. Route-game rotation (25 min)

Station	Replays	What children do
A · Grid robots	T1 W9	Walk one square per “forward” card on the taped grid and freeze on “stop”.
B · Road closed	T3 W4	A “road closed” box appears: swap in the “go round” card and walk it to test.
C · Card route + swap back (teacher)	T1 W9 + T1 W5	Lay forward, forward, stop; push cardboard Ayo one square per card to the stall. A partner swaps two cards; swap them back.

- Three stations, about **8 minutes each**. Teams of 3 rotate on two claps.
- **The teacher stays at Station C** (Core: Code) and works with children who need more help with ordering and fixing.
- **Stretch:** make the straight route longer (4–5 cards) or add a “do it again” card.

3. Share (10 min)

- **Activity Book page** (4 min): draw Ayo’s path from the cards. Not marked.
- **Create:** draw Ayo’s straight way to the market.
- **Close:** say the review words with hand signs: forward, stop, path, another way, fix.

Common mistakes

- Moving two squares for one card → “One card, one square. Count with me.”
- Forgetting stop → “What tells Ayo to freeze?”
- Reshuffling all the cards when two are swapped → “Check each card. Find the two that are wrong.”

What if it doesn't work?

- No space for 3 grids → one big grid; teams take turns while others are checkers.
- No tape → chalk squares or sheets of paper.

Support and stretch

- **Support:** start with 2 cards (forward, stop) and one square; add a card when ready.
- **Stretch** (optional, never assessed): 4–5 card routes or a "do it again" card.

How we check

Observation only. Use the class checklist (Guide 05): lays a 3-card straight route, runs it and swaps back two swapped cards.

> **Safety**
> Tape flat; walk one square at a time; road-closed box light and empty; space between grids.
